MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the man being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of dirt or a mouth-dirt."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The questions should be asked and the man's answers recorded before he is dressed."

"He is then to be divested of all his clothing and the examination proceeded with systematically in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Some important part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chest of a recruit, without there being any indication of disease. These likewise should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. It is an error to require during the inspection, that facts should be recorded. Men sometimes speak English very well when first examined, who, after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"The most accurate description of the whole person is obtained, and some serious questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute final decision' will be discovered before commencing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above 'Form,' when filled up, should be sent with the recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the 'Form,' and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

William M. Samuel

I CERTIFY, ON HONOR, That I have carefully examined the above named Volunteer,
agreeably to the General Regulations of the Army, and that in my opinion he is free from all bodily
defects and mental infirmity, which would, in any way, disqualify him from performing the duties of
a soldier.

EXAMINING SURGEON.

I CERTIFY, ON HONOR, That I have minutely inspected the Volunteer, William M. Samuel
previously to his enlistment, and that he was entirely sober when
enlisted; that, to the best of my judgment and belief, he is of lawful age; and that, in accepting him
as duly qualified to perform the duties of an able-bodied soldier, I have strictly observed the Regula-
tions which govern the recruiting service. This soldier has dark eyes, dark hair, clear
complexion, is 5 feet 10 1/2 inches high.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they occasionally may be, and sometimes are, by incrustations of dirt a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"There upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cutting upon the chest of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well who are uneducated, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of objection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—As enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. NOTE 1.

The company commander will here add a statement of all the facts known to him concerning the disease or wound, or cause of disability of the soldier; the time, place, manner, and all the circumstances under which the injury occurred, or disease originated or appeared; the duty, or service, or situation of the soldier at the time the injury was received or disease contracted, stating particularly whether the injury was received or the disease contracted in the line of his duty; and whatever other facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.

When the facts are not known to the company commander, the certificate of any officer, or affidavit of other person having such knowledge, will be appended—as the surgeon in charge of a hospital, the officer commanding a detachment of recruits, &c., &c.

NOTE 2.

When a probable cause for pension, special care must be taken to state the degree of disability—as *l. p. &c.*, &c.; to describe particularly the disability, wound, or disease; the extent of which it deprives him of the use of any limb or faculty, or affects his health, strength, activity, constitution, or capacity to labor or earn his subsistence. The surgeon will add, from his knowledge of the facts and circumstances, and from the evidence in the case, his professional opinion of the cause or origin of the disability. In the case of discharges by Medical Inspectors, the last paragraph will state that the "discharge was given by consent of the soldier, after a personal examination, and for disability, the nature, degree, and origin of which are accurately described in the within certificate."

For 1860 Regulations, Edit. 1861.

Medical officers, in giving certificates of disability, are to take particular care in all cases that have not been under their charge; and especially in epilepsy, convulsions, chronic rheumatism, derangement of the urinary organs, opthalmia, ulcers, or any obscure disease liable to be feigned or purposely produced; and in no case shall such certificate be given until after sufficient time and examination to detect any attempt at deception.

DIRECTIONS.

This certificate will be made out in duplicate by the soldier's company commander, or other officer commanding the company detachment to which he belongs, and sent by him to the surgeon who has charge of the hospital where the soldier is sick. The surgeon will then fill out and sign the surgeon's certificate, and forward those papers to the regimental, detachment, or post commander, who will forward them, with his action endorsed thereon, through the proper channel, to his division commander; or, if the troops are not attached to a division, to his corps, department, or other commander or officer to whom the authority to discharge enlisted men may be specially delegated.

These certificates, after having received the action of the highest authority to which they are required to be sent, will be returned through the same channel to the regimental, post, or detachment commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the two certificates on this paper; one that the soldier is furnished with the proper final statements in duplicate, and forward both of these certificates direct to the Adjutant General United States Army, at Washington, D. C.; they will not, under any circumstances, be given into the hands of the soldier.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of dirt and scab old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection, through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: if the man has received at any time a blow upon the head with a resulting contusion or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cutting upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the residence or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out, (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other commanding officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should contain a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the master roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. These accounts for each pay, &c., are entitled by the 1st Auditor of the Treasury Department.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

I would respectfully suggest
(in view of my attending the Legislature)
that the two sub districts of Boone
& Warren be consolidated and that
one man command them both. If
my Regiment is to remain upon duty
in both it would greatly facilitate
our Regimental business by having
the whole regiment report to one
Commander. I would beg to sug-
gest Mexico as the Head Quarters for
the district, if the two sub districts
are consolidated. I feel some-
desire to have as many of my

that they may proceed with Battalion

I wish, yea! we all
wish Col. Dyer appointed over
this Sub-District instead of
Douglass, our votes in this
part of the country certainly
entitles us to a loyal sub-
Commander. We want Col.
Dyer if you have confidence
in his loyalty - I am not
able to go home yet, with
any security of safety -

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which the examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the recruit should be washed clean before he is presented to the Surgeon for inspection. It is imperative for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of dirt a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasion, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions named under the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow on the head with a resulting contusion or slight depression, let it be noted thus: 'Contusion and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free capping upon the chest of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a chancre, though not sufficient to disqualify, let it be noted upon the proper head; and so of hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the residence or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Here a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Department to which he may be assigned."

"Defects discovered at the Depot upon re-inspection should be entered upon the Form, and signed by the Surgeon. In case of inspection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

Mustered into the service of the United States, for three years or during the war, from date of enlistment, in Company 1st
47th Regiment of Infantry Volunteers, on the 1st day of November, 1864 at Louisiana Mo
It is certified to the War Department.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than day when presence is absolutely required, should be admitted to the room."

"The person of the recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they occasionally may be, and sometimes are, by insinuations of skin a month old."

"We have remarks of that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received any blow or blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man recorded. It is not uncommon to find marks of free cupping from the effects of dysentery, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circosis, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the regular time or date."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, upon further consideration, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

Sir:

In reply to your letter requesting a Descriptive List of John M. Dyke, a Private in Company A, 49th Regiment Mo. Volunteers, I have the honor to furnish the following "Descriptive List" obtained from the records of this Office: which, from the want of the necessary data, (which is in the possession of the Company Commander,) is only "partial."

NAME, RANK AND REGIMENT, DESCRIPTION, &c.

John M. Dyke, a Private in Company A, 49th Regiment Mo. Volunteers.

years of age; but no further "description" can be obtained from the files of this Office. He was enrolled on the 12th day of Aug. 1864, at the town of Troy in the State of Mo. by Lieut. Wm. Collier, and mustered into the service of the United States on the 31st day of Aug. 1864, at the town of Warrenton in the State of Mo. by Lieut. McFarland, to serve for the period of 1 year "during the war."

ACCOUNT OF PAY.

It is stated on the Muster Rolls of his Company for the months of Jan. & Feb. 1865, (latest on file) that he was last paid by Paymaster Mitchell to the 31st day of Dec. 1864.

ACCOUNT OF CLOTHING.

The files of this Office furnish no account of clothing: it must be obtained, if obtained at all, from his Company Commander.

REMARKS

On same Roll he is reported present for duty without remark.

Very respectfully,

Your obedient servant,

Wm. H. French

This "Partial Descriptive List" is given in order that the soldier may be discharged at once, without waiting for a descriptive list from his company commander; and, having been used by the proper officer to make out the soldier's final statement, should be endorsed with a statement to that effect by the officer. This endorsement should exhibit a full statement of the time for which the soldier was allowed pay on his final statement, the clothing company commander of the soldier, who will enter all the data necessary to a full understanding of the soldier's account. It will then be transmitted to the soldier's discharge is reported. This list will then be destroyed. The object of this is, that the remaining portion of the soldier's account may be settled upon the receipt of these muster rolls, and the soldier receive any pay or allowance that may be due him of the time of his discharge, and which may not appear on his final statement from the fact that this list is incomplete or "partial."

Extract from Act of Congress.

SEC. 12. And be it further enacted, That the fees of agents and attorneys for making out and causing to be executed the papers necessary to establish a claim for a pension, bounty, and other allowance before the Pension Office, under this act, shall not exceed the following rates: For making out and causing to be duly executed a declaration by the applicant, with the necessary affidavits, and forwarding the same to the Pension Office, with the requisite correspondence, ten dollars; which sum shall be received by such agent or attorney in full for all services in obtaining such pension, and shall not be demanded or received, in whole or in part, until such pension shall be obtained; and the sixth and seventh sections of an act entitled "An act to grant pensions," approved July [fourteenth.] eighteen hundred and sixty-two, are hereby repealed.

SEC. 13. And be it further enacted, That any agent or attorney who shall, directly or indirectly, demand or receive any greater compensation for his services under this act than is prescribed in the preceding section of this act, or who shall contract or agree to prosecute any claim for a pension, bounty, or other allowance under this act, on the condition that he shall receive a per centum upon any portion of the amount of such claim, or who shall wrongfully withhold from a pensioner or other claimant the whole or any part of the pension or claim allowed and due to such pensioner or claimant, shall be deemed guilty of a high misdemeanor, and, upon conviction thereof, shall, for every such offense, be fined not exceeding three hundred dollars, or imprisoned at hard labor not exceeding two years, or both, according to the circumstances and aggravations of the offense.

Approved July 4, 1864.

FINAL STATEMENT

OF

Volunteers.
Dis July 21 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service.) That he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to that effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Landrum must be entered on the muster roll on which the discharge is reported, &c., as reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used by mustered volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for these, &c., of enrolled, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words as a veteran, (or recruit) on the line may be, should be interlined after the words mustered into the service of the U. S. A statement of all the installments of Pension or Bounty RECEIVED by the Soldier must be made on the back of each final statement.

TREATMENT.

[SEE NOTE IMPORTANT COMPLICATIONS AND ALL OPERATIONS.]

RESULT AND DATE.

NOTE 1.

The company commander will here add a statement of all the facts known to him concerning the disease or wound, or cause of disability of the soldier; the time, place, manner, and all the circumstances under which the injury occurred, or disease originated or appeared; the duty, or service, or situation of the soldier at the time the injury was received or disease contracted, stating particularly whether the injury was received or the disease contracted in the line of his duty; and whatever other facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.

When the facts are not known to the company commander, the certificate of any officer, or affidavit of other person having such knowledge, will be appended—as the surgeon in charge of a hospital, the officer commanding a detachment of recruits, &c., &c.

NOTE 2.

When a *probable* case for pension, special care must be taken to state the degree of disability—as *4, 5, &c.*, &c.; to describe particularly the disability, wound, or disease; the extent of which it deprives him of the use of any limb or faculty, or affects his health, strength, activity, constitution, or capacity to labor or earn his subsistence. The surgeon will add, from his knowledge of the facts and circumstances, and from the evidence in the case, his professional opinion of the cause or origin of the disability. In the case of discharges by Medical Inspectors, the last paragraph will state that the "discharge was given by consent of the soldier, after a personal examination, and for disability, the nature, degree, and origin of which are correctly described in the within certificate."

Par. 1110 Regulations, Ed. 1861.

Medical officers, in giving certificates of disability, are to take particular care in all cases that have not been under their charge; and especially in epilepsy, convulsions, chronic rheumatism, derangement of the urinary organs, ophthalmia, ulcers, or any obscure disease liable to be feigned or purposely produced; and in no case shall such certificate be given until after sufficient time and examination to detect any attempt at deception.

DIRECTIONS.

This certificate will be made out in duplicate by the soldier's company commander, or other officer commanding the separate detachment to which he belongs, and sent by him to the surgeon who has charge of the hospital where the soldier is sick. The surgeon will then fill out and sign the surgeon's certificate, and forward their papers to the regimental, detachment, or post commander, who will forward them, with his action endorsed thereon, through the proper channel, to his division commander; or, if the troops are not attached to a division, to his corps, department, or other commander or officer to whom the authority to discharge enlisted men may be specially delegated.

These certificates, after having received the action of the highest authority to which they are required to be sent, will be returned through the same channel to the regimental, post, or detachment commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the last certificate on this paper; see that the soldier is furnished with the proper final statements in duplicate, and forward BOTH of these certificates direct to the Adjutant General United States Army, at Washington, D. C.; they will not, under any circumstances, be given into the hands of the soldier.

Extract from Act of Congress.

SEC. 12. And be it further enacted, That the fees of agents and attorneys for making out and causing to be executed the papers necessary to establish a claim for a pension, bounty, and other allowance before the Pension Office, under this act, shall not exceed the following rates: For making out and causing to be duly executed a declaration by the applicant, with the necessary affidavits, and forwarding the same to the Pension Office, with the requisite correspondence, ten dollars; which sum shall be received by such agent or attorney in full for all services in obtaining such pension, and shall not be demanded or received, in whole or in part, until such pension shall be obtained; and the sixth and seventh sections of an act entitled "An act to grant pensions," approved July [fourteenth,] eighteen hundred and sixty-two, are hereby repealed.

SEC. 13. And be it further enacted, That any agent or attorney who shall, directly or indirectly, demand or receive any greater compensation for his services under this act than is prescribed in the preceding section of this act, or who shall contract or agree to prosecute any claim for a pension, bounty, or other allowance under this act, on the condition that he shall receive a per centum upon any portion of the amount of such claim, or who shall wrongfully withhold from a pensioner or other claimant the whole or any part of the pension or claim allowed and due to such pensioner or claimant, shall be deemed guilty of a high misdemeanor, and, upon conviction thereof, shall, for every such offense, be fined not exceeding three hundred dollars, or imprisoned at hard labor not exceeding two years, or both, according to the circumstances and aggravations of the offense.

Approved July 4, 1864.

NOTE 10.—If any soldier is charged a higher fee than that allowed by the above act, he should report the fact and the name of the agent to the Adjutant General, in order that steps may be taken to have the same returned.

JUN 21 1865

DUPLICATE WITH INVENTORY SENT 2^d AUDITOR

FINAL STATEMENT

OF
Thomas P. Ernest Cook
49 Reg't of Inftry. 2^d M.

VOLUNTEERS.
Died May 26, 1865.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out, (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other commanding officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, as it should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the master roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these master rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amount due the Soldier and Landworn must be entered on the master roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for known volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the Soldier is a drafted man or substitute, the space for three &c., of enrolled, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "VETERAN," (or RE-ENLISTED,) the words as a veteran, (or re-enlisted,) as the case may be, should be interlined after the words mustered into the service of the U. S. A statement of all the installments of Payroll or Service Money RECEIVED by the Soldier must be made on the back of each final statement.

I certify, on honor, that Thomas P. Erueh, a Private of
Captain William Albert Company (A) of the 49 Regiment of Inftry Mo
VOLUNTEERS, of the State of Missouri, born in Lincoln County, State
of Missouri, aged 29 years; 5 feet 10 inches high; Fair complexion,
Blue eyes, Light hair, and by occupation a Fanner, who joined for service
and was enrolled (see Note 9) on the 8th day of August, 1864, at Froy Mo
by Link Coebert, for the period of one year, and mustered into

And in case any of the officers so authorized to take care of the effects of deceased officers and soldiers, should, before they have accounted to their representatives for the same, have reason to leave the regiment or post, by preference or otherwise, they shall, before they be permitted to quit the same, deposit in the hands of the commanding officer, or of the assistant military agent, all the effects of each deceased non-commissioned officer and soldier, in order that the same may be secured for, and paid to, their respective representatives.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

Room in which this examination is conducted should be well lighted enough to admit of the man being walked about freely, that every member of locomotion may be subjected to inspection. For obvious reasons no other than they whose presence is absolutely required, should be in the room.

Face of the Recruit should be washed clean before he is presented for inspection. It is impossible for the medical officer to be existence of certain defects that absolutely disqualify, when as they effectually may be, and sometimes are, by incrustations with oil.

It is remarked that certain defects can be ascertained only by questioning himself, and that, in order to avoid all subsequent evasions, as to these questions should be recorded on the spot. We shall in a method of effecting this object as well as of making it sure that no part shall escape inspection through any slip of the tongue should be asked and the man's answers recorded before he

is to be directed of all his clothing and the examination proceeded actually, in the order of regions as indicated in the 'Form.'

Region is to note every peculiarity or deviation from the normal each particular region. For example, if the man has received a blow upon the head with a resulting distortion or slight depression noted thus: 'Crest of head and slight depression upon the right side.'"

On any part of the person should be noted, and the cases assigned recorded. It is not uncommon to find marks of free scarring of the face, without there being any indication of disease, per should be noted.

Inspection, the man be found to have a Chinewide, though not disqualify, let it be noted under the proper head, and so of any other affection. The vaccine scar and its position noted, and whether vaccination has been practiced at the residence.

Under head of 'Remarks,' Constitutional Syphilis or other Cachectic, etc. If an interpreter is required during the inspection, that be recorded. Men sometimes speak English very well when first they, from after consideration, are entirely ignorant of the language, and sometimes succeed in obtaining a discharge in

case an accurate description of the whole person is obtained, and questions of identity, should such be subsequently raised; in any defects about which a difference of opinion may exist, the defects were not overlooked by the first inspecting Surgeon, but."

It frequently happens that an 'absolute disqualification' will be discovered by completing the examination. Such a defect may be detected at the inspection. In such cases it will of course be unnecessary to further."

The 'Form,' when filled up, should be sent with the Recruit to the Depot, to be finally inspected, and thence transmitted to the Surgeon who may be assigned."

Inspected of the Depot upon reinspection should be endorsed by and signed by the Surgeon; in case of Rejection the description should be transmitted with the proceedings of the Board to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A master-in-must, in all cases, precede payment of pay, bounty, pension, &c. A master-in-roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster in. The recruiting officer, commanding, or commissary of musters, as the case may be, will countersign both enlistments as having mastered the soldier into the service of the United States, and then is given to the enlisting officer.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

Volunteer.
Dis. Dec. 6 1864

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service.) One to be kept by the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment ordered out. The discharge is to be given back to the Soldier by the Paymaster; the latter may retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full and accurate statement of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be verified upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the Ad. Auditor of the Treasury Department.

NOTE 4.—Charges for loss or damage to clothing, horse equipments, and other necessaries should appear under the heading of "Other Stoppages."

NOTE 5.—Money paid by the Government, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Landwarrant must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—The blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the Soldier is a drafted man or substitute, the space for time, &c., of service, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "VETERAN," (or RE-ENLISTED) the words as a veteran, (or re-enlisted) as the case may be, should be inserted after the words mustered into the service of the U. S. A statement of all the installments of Pay or Service Money RECEIVED by the Soldier must be made on the back of each final statement.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language; when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon re-inspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and enlistments of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds no service. A muster-in must, in all cases, precede payment of pay. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The muster-in roll, or assistant commissary of muster-in, as the case may be, will countersign both enlistments as having mustered the soldier into the service and the receipt for pay.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting regulations of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The recruiting officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service, & must be in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

SEC. 12. And be it further enacted, That the fees of agents and attorneys for making out and causing to be executed the papers necessary to establish a claim for a pension, bounty, and other allowance before the Pension Office, under this act, shall not exceed the following rates: For making out and causing to be duly executed a declaration by the applicant, with the necessary affidavits, and forwarding the same to the Pension Office, with the requisite correspondence, ten dollars; which sum shall be received by such agent or attorney in full for all services in obtaining such pension, and shall not be demanded or received, in whole or in part, until such pension shall be obtained; and the sixth and seventh sections of an act entitled "An act to grant pensions," approved July [fourteenth,] eighteen hundred and sixty-two, are hereby repealed.

Sec: 13. And he is further enacted, That any agent or attorney who shall, directly or indirectly, demand or receive any greater compensation for his services under this act than is prescribed in the preceding section of this act, or who shall extort or agree to prosecute any claim for a pension, bounty, or other allowance under this act, on the condition that he shall receive a per centum upon any portion of the amount of such claim, or who shall wrongfully withhold from a pensioner or other claimant the whole or any part of the pension or claim allowed and due to such pensioner or claimant, shall be deemed guilty of a high misdemeanor, and, upon conviction thereof, shall, for every such offense, be fined not exceeding three hundred dollars, or imprisoned at hard labor not exceeding two years, or both, according to the circumstances and aggravations of the offense.

Approved July 4, 1884.

NOTE 10.—If any soldier is charged a higher fee than that allowed by the above act, he should report the fact and the name of the agent to the Adjutant General, in order that steps may be taken to have the same returned.

DUPLICATE WITH INVENTORY, SENT 2^o AUDITOR

FINAL STATEMENT

Joseph L. Coff. Co. H

49th Reg't of The Infly Col

VOLUNTEERS,
Died May. 3 1865.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each volunteer Soldier or drafted man who may be discharged without being transferred out, (final Statements are never given to men transferred out of service.) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 2.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for bank pay, &c., are sent by the Aid Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to baggage, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppage."

NOTE 2.—Security paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE C.—Amounts due the United States must be entered on the master roll on which the discharge, death certificate, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 2.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statement, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 2.—If the soldier is a drafted man or substitute, the space for name, age, and married, should contain only the word drafted or substitute, as the case may be. The Soldier is a "VERBENA" (or RECRUIT), the words as a veteran, (or recruit,) as the case may be, should be interlined after the words candidate, in the service of the U. S. A statement of all the installments of Veterans or Invalids Bounty RECEIVED by the Soldier must be made on the back of each final statement.

I certify, on honor, that Joseph L. Coff, Private of
Captain John M. Gentry, Company (H) of the 44th Regiment of Missouri Infantry
VOLUNTEERS, of the State of Missouri, born in Pike Co., State

FINAL STATEMENT

or
Perry E. Sperson
 Co. 1st
 49th Reg't of Inf'y. Mo. Vol 2

VOLUNTEERS.

Died April 24, 1863

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier's company, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 1st Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Money paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Landworn must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the Soldier is a drafted man or substitute, the space for time, &c., of enlistment, should contain only the word *drafted* or *substitute*, as the case may be. If the Soldier is a "VETERAN," (or *RE-ENLISTED*), the words *as a veteran*, (or *re-enlist.*) as the case may be, should be interlined after the words *mustered into the service of the U. S.* A statement of all the installments of Pay or Brevet Money RECEIVED by the Soldier must be made on the back of each final statement.

Extract from Act of Congress.

SEC. 12. And be it further enacted, That the fees of agents and attorneys for making out and causing to be executed the papers necessary to establish a claim for a pension, bounty, and other allowance before the Pension Office, under this act, shall not exceed the following rates: For making out and causing to be duly executed a declaration by the applicant, with the necessary affidavits, and forwarding the same to the Pension Office, with the requisite correspondence, ten dollars; which sum shall be received by such agent or attorney in full for all services in obtaining such pension, and shall not be demanded or received, in whole or in part, until such pension shall be obtained; and the sixth and seventh sections of an act entitled "An act to grant pensions," approved July (fourteenth,) eighteen hundred and sixty-two, are hereby repealed.

SEC. 13. And be it further enacted, That any agent or attorney who shall, directly or indirectly, demand or receive any greater compensation for his services under this act than is prescribed in the preceding section of this act, or who shall contract or agree to prosecute any claim for a pension, bounty, or other allowance under this act, on the condition that he shall receive a per centum upon any portion of the amount of such claim, or who shall wrongfully withhold from a pensioner or other claimant the whole or any part of the pension or claim allowed and due to such pensioner or claimant, shall be deemed guilty of a high misdemeanor, and, upon conviction thereof, shall, for every such offense, be fined not exceeding three hundred dollars, or imprisoned at hard labor not exceeding two years, or both, according to the circumstances and aggravations of the offense.

Approved July 4, 1864.

NOTE 10.—If any soldier is charged a higher fee than that allowed by the above act, he should report the fact and the name of the agent to the Adjutant General, in order that steps may be taken to have the same refunded.

AUG 18 1865
DUPLICATE, WITH INVENTORY, SENT 22 AUGUST

FINAL STATEMENT

OF

Thomas. Evans
28 Reg't of Missouri Infantry

VOLUNTEERS.

Dis Jan 4 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service.) That he may at once receive from the Paymaster the pay, &c., due him, and the captain or other commanding officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment cashed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his home, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so accounted on his own home.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary on a full understanding of the Soldier's account on the master roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these master rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for such pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments and other miscellaneous charges, should appear under the heading of "Other Discharges."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Accounts due the Soldier and Landrum must be entered on the master roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for drafted volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service his descriptive list, if he has one, should be sent with his final statements or duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the Soldier is a drafted man or conscript, the name for such, &c., of enrolled, should contain only the word drafted or conscript, as the case may be. If the Soldier is a "Volunteer," (or RECRUIT,) the words as a volunteer, (or recruit,) as the case may be, should be interlined after the words mustered into the service of the U. S. A statement of all the movements of Veterans or Recruits, Bounty RECEIVED by the Soldier, must be made on the back of each final statement.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in will must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the discharging officer.

FINAL STATEMENT 1740

or

Lt Regt of 1st

Volunteers.
Lieut. Feltner 5th 1865.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other commanding officer commanding the company will certify to the act of the delivery of the duplicate certificate; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Regiment, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State or Territory, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and his dependents must be entered on the muster roll on which the discharge, health, description, &c., is reported, as well as on the final statement, and the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for name, &c., of enrolled, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words as a veteran, (or recruit,) as the case may be, should be interlined after the words mustered into the service of the U. S. A statement of all the installments of Pension or Bounty Money RECEIVED by the Soldier must be made on the back of each final statement.

ARTICLES OF WAR.

ART. 61. When any non-commissioned officer or soldier shall die, or be killed in the service of the United States, the then commanding officer of the troop or company shall, in the presence of two other commissioned officers, take an account of what effects he died possessed of, above his arms and accoutrements, and transmit the same to the office of the Department of War, which said effects are to be accounted for, and paid to the representatives of such deceased non-commissioned officer or soldier. And in case any of the officers, so authorized to take care of the effects of deceased officers and soldiers, should, before they have accounted to their representatives for the same, have occasion to leave the regiment or post, by procurement or otherwise, they shall, before they be permitted to quit the same, deposit in the hands of the commanding officer, or of the assistant military agent, all the effects of such deceased non-commissioned officers and soldiers, in order that the same may be secured for, and paid to, their respective representatives.

ARMY REGULATIONS—EDITION OF 1863.

DECEASED SOLDIERS.

PAR. 132. Inventories of the effects of deceased non-commissioned officers and soldiers, required by the 61st Article of War, will be forwarded to the Adjutant General, by the commander of the company to which the deceased belonged, and a duplicate of the same to the colonel of the regiment. Final statements of pay, clothing, &c., in duplicate, will be sent to the Adjutant General with one copy of the inventory. When a soldier dies at a post or station absent from his company, it will be the duty of his immediate commander to furnish the required inventory and final statements, and, on the same time, to forward to the commanding officer of the company to which the soldier belonged, a report of his death, specifying the date, place, and cause; to what time he was last paid, and the money or other effects in his possession at the time of his decease; which report will be noted on the next muster roll of the company to which the man belonged. Each inventory will be endorsed, "Inventory of the effects of _____, late of company (---) _____ regiment of _____, who died at _____, the _____ day of _____, 186-." If a legal representative receives the effects, it will be stated in the report. If the soldier leave no effects, the fact will be reported.

PAR. 133. Should the effects of a deceased non-commissioned officer or soldier not be administered upon within a short period after his decease, they shall be disposed of by a Council of Administration, under the authority of the commanding officer of the post, and the proceeds deposited with the Paymaster, to the credit of the United States, until they shall be claimed by the legal representatives of the deceased.

PAR. 134. In all such cases of sales by the Council of Administration, a statement in detail, or account of the proceeds, duly certified by the Council and commanding officer, accompanied by the Paymaster's receipt for the proceeds, will be forwarded by the commanding officer to the Adjutant General. The statement will be endorsed, "Report of the proceeds of the effects of _____, late of company (---) _____ regiment of _____, who died at _____, the _____ day of _____, 186-."

NOTE 1.—The effects in all cases, when called for, should be turned over to the legal representative, without further authority from the Adjutant General. When the effects are turned over to the relatives of the deceased before these inventories are sent to the Adjutant General, their receipts therefor should be attached to the inventories. In all other cases, one copy will be sent with a letter of transmittal direct to the Adjutant General, and a duplicate retained by the officer.

NOTE 2.—Particular care should be taken to take receipts in duplicate from the Paymaster for any funds turned over to him; one copy should be sent direct to the Adjutant General and one retained by the officer.

VOLUNTEERS.

Due Apl 28 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out (final statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statement, the clothing account, and whether charges against him or in his favor, so as to comprise a complete outline of his account. It will then be transmitted to the Company Commander of the regiment, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be carried upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statement from the fact that his descriptive list is incomplete. These accounts for each pay, &c., are sent by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by the State or Territory, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and his dependents must be entered on the muster roll on which the discharge is reported, &c., as reported, as well as on the final statement, and the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—When a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the Soldier is a drafted man or substitute, the space for time, &c., of service, should contain only the word *drafted* or *substitute*, as the case may be. If the Soldier is a "veteran," (see NOTE 10) the words *as a veteran*, (or *corrupt*), as the case may be, should be interlined after the words *mustered into the service of the U. S.* A statement of all the installments of *pay* or *allowance* *RECEIVED* by the Soldier must be made on the back of each final statement.

MODE OF EXAMINING A RECRUIT.

(From Triphart's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the man being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting ecchymosis or slight depression, let it be noted thus: 'Contusion and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cutting upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumole, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after consideration, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon re-inspection should be endorsed upon the Form, and signed by the Surgeon. In case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

VOLUNTEERS.

Died April 11, 1865.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out (Final Statements are never given to men mustered out of service.) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other commanding officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to that effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the closing account, and all other charges against him or in his favor, as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the master roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portions of the Soldier's account may be settled upon the receipt of these master rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 31 Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to equipment, horse, equipments, and other miscellaneous charges, should appear under the heading of "Other Discharges."

NOTE 5.—Bounty paid by State authorities, or by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and his family, as to be entered on the master roll on which the discharge is reported, &c., is reported, as well as on the final statement, should be entered on the master roll collected from the United States.

NOTE 7.—This blank will be used for drafted volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the Soldier is a drafted man or substitute, the cause for time, &c., of enlistment, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "VETERAN," (or recruit,) the words as a veteran, (or recruit,) as the case may be, should be inserted after the words mustered into the service of the U. S. A statement of all the installments of Pay or Allowance Money RECEIVED by the Soldier must be made on the back of each final statement.

ARTICLES OF WAR.

ART. 51. When any non-commissioned officer or soldier shall die, or be killed in the service of the United States, the then commanding officer of the troop or company shall, in the presence of two other commissioned officers, take an account of what effects he died possessed of, above his arms and accoutrements, and transmit the same to the office of the Department of War, which said effects are to be accounted for, and paid to the representatives of such deceased non-commissioned officer or soldier. And in case any of the officers, so authorized to take care of the effects of deceased officers and soldiers, should, before they have accounted to their representatives for the same, have occasion to leave the regiment or post, by promotion or otherwise, they shall, before they be permitted to quit the same, deposit in the hands of the commanding officer, or of the nearest military agent, all the effects of such deceased non-commissioned officers and soldiers, in order that the same may be secured for, and paid to, their respective representatives.

ARMY REGULATIONS—EDITION OF 1863.

DECEASED SOLDIERS.

PAR. 122. Inventories of the effects of deceased non-commissioned officers and soldiers, required by the 51st Article of War, will be forwarded to the Adjutant General, by the commander of the company to which the deceased belonged, and a duplicate of the same to the colonel of the regiment. Final statements of pay, clothing, &c., in duplicate, will be sent to the Adjutant General with one copy of the inventory. When a soldier dies at a post or station absent from his company, it will be the duty of his immediate commander to furnish the required inventory and final statements, and, at the same time, to forward to the commanding officer of the company to which the soldier belonged, a report of his death, specifying the date, place, and cause; to what time he was last paid, and the money or other effects in his possession at the time of his decease, which report will be entered on the next muster roll of the company to which the man belonged. Such inventory will be endorsed, "Inventory of the effects of _____, late of company (—), _____ regiment of _____, who died at _____, the _____ day of _____, 186—." If a legal representative receives the effects, it will be stated in the report. If the soldier leaves no effects, the fact will be reported.

PAR. 123. When the effects of a deceased non-commissioned officer or soldier are to be distributed upon within a short period after his decease, they shall be distributed by a Council of Administration, under the authority of the commanding officer of the post, and the proceeds deposited with the Paymaster, to the credit of the United States, until they shall be claimed by the legal representatives of the deceased.

PAR. 124. In all other cases of sales by the Council of Administration, a statement in detail, or account of the proceeds, duly certified by the Council, and commanding officer, accompanied by the Paymaster's receipt for the proceeds, will be forwarded by the commanding officer to the Adjutant General. This statement will be endorsed, "Report of the proceeds of the effects of _____, late of company (—), _____ regiment of _____, who died at _____, the _____ day of _____, 186—."

NOTE 1.—The effects in all cases, when called for, should be turned over to the legal representative, without further authority from the Adjutant General. When the effects are turned over to the relatives of the deceased before their representatives are notified, the Adjutant General, their receipts therefor should be attached to the inventories. In all other cases, one copy will be sent with a letter of transmittal direct to the Adjutant General, and a duplicate retained by the officer.

NOTE 2.—Particular care should be taken to take receipts in duplicate from the Paymaster for any funds turned over to him; one copy should be sent direct to the Adjutant General and was retained by the officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of skin a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting scar or slight depression, let it be noted thus: 'Scar or slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumcision, though not sufficient to disqualify, let it be noted under the proper head; and so of Fractures, or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the residence or depot."

"Under the head of 'Remarks' Gonorrhea, Syphilis, or other Venereal, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who soon after examinations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of eligibility, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon re-inspection should be endorsed upon the Form, and signed by the Surgeon. In case of Rejection, the documents should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of skin a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cases assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circoscia, though not sufficient to disqualify, let it be noted under the proper head, and so of Hemorrhoids or any other affection. The vacuine scar and its position should be noted, and whether vaccination has been practiced at the rendez-vous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, and those insidious questions of identity, should such be subsequently raised; and as to any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be noted at any stage of the inspection. In such cases it will of course be necessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

VOLUNTEERS.

Each July 13 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged previously to the discharge of his company, that he may at once receive from the Paymaster the pay, &c., due him, and the Captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; on these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment enforced on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his voucher the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also on the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. This endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, as in to comprise a complete exhibit of his account. It will then be transmitted to the company commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the master roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be sealed upon the receipt of these master rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his final statements from the fact that his descriptive list is reported. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to personal horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on the statement.

NOTE 6.—Amounts due the Soldier and Landrows must be entered on the master roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Second Auditor, Washington, D. C.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of lice clinging upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancro, though not sufficient to disqualify, let it be noted under the proper head; and so of hemorrhoids or any other affection. The venous ear and its position should be noted, and whether vaccination has been practiced at the random vena or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Carcinoma, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon re-inspection should be endorsed upon the Form, and signed by the Surgeon; in case of inspection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

DUPLICATE WITH INVENTORY SENT TO AUDITOR

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificate, with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers, the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the master roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portions of the Soldier's account may be acted upon the receipt of those master rolls, and the Soldier receive any pay of his wages that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the Adj. Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Laurence must be entered on the master roll on which the discharge, death certificate, &c., is reported as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies by Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the subject is a drafted man or substitute, the space for time, &c., at enrolment, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "veteran," (as defined in the words as a veteran, (or recruit,) as the case may be, should be inserted after the words mustered into the service of the U. S. A statement of all the installments of Pay and Back Pay RECEIVED by the Soldier must be made on the back of each final statement.

NOTE 1.—This blank will be used for both enlistments and reenlistments of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the enlistment (sent the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The lieutenant and Company in which the soldier has served should be given on the back.

NOTE 2.—An enlistment binds to service, whether in front, in all cases, precise payment of pay, bounty, pension, &c. A master-in-roll must, in all cases, be filed in the Adjutant General's Office as evidence of enlistment. The recruiting officer, commissary, or assistant commissary of recruits, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the recruiting officer.

NOTE 1.

The company commander will here add a statement of all the facts known to him concerning the disease or wound, or cause of disability of the soldier; the time, place, manner, and all the circumstances under which the injury occurred, or disease originated or appeared; the duty, or service, or situation of the soldier at the time the injury was received or disease contracted, stating particularly whether the injury was received or disease contracted in the line of his duty; and whatever other facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.

When the facts are not known to the company commander, the certificate of any officer, or affidavit of other person having such knowledge will be appended—as the surgeon in charge of a hospital, the officer commanding a detachment of recruits, &c., &c.

NOTE 2.

When a probable case for pension, special care must be taken to describe the degree of disability—as *l. b. &c.*, &c., to describe particularly the disability, wound or disease; the extent to which it deprives him of the use of any limb or faculty, or affects his health, strength, activity, constitution, or capacity to labor or earn his subsistence. The surgeon will add, from his knowledge of the facts and circumstances, and from the evidence in the case, his professional opinion of the cause or origin of the disability. In the case of discharges by Medical Inspectors, the last paragraph will state that the "discharge was given by consent of the soldier, after a personal examination, and for disability, the nature, degree, and origin of which are correctly described in the within certificate."

Per. 1260 Regulations, Ed. 1861.
Medical officers, in giving certificates of disability, are to take particular care in all cases that have not been under their charge; and especially in epilepsy, convulsions, chronic rheumatism, derangement of the urinary organs, ophthalmia, &c., or any obscure disease liable to be feigned or purposely produced; and in no case shall such certificates be given until after sufficient time and examination to detect any attempt at deception.

DIRECTIONS.

This certificate will be made out in duplicate by the soldier's company commander, or other officer commanding the separate detachment to which he belongs, and sent by him to the surgeon who has charge of the hospital where the soldier is sick. The surgeon will then fill out and sign the surgeon's certificate, and forward these papers to the regimental, detachment, or post commander, who will forward them, with his action endorsed thereon, through the proper channel to his division commander; or if the troops are not attached to a division, to his corps, department, or other commander or officer to whom the authority to discharge enlisted men may be specially delegated.

These certificates, after having received the action of the highest authority to which they are required to be sent, will be returned through the same channel to the regimental, post, or detachment commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the last certificate on this paper; so that the soldier is furnished with the proper final statements in duplicate, and forward both of these certificates direct to the Adjutant General United States Army, at Washington, D. MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being waited about freely; that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, some others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when commenced, as they effectually may be, and sometimes are, by insensations of little or no value."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of insuring in case that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, he is to be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of their cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If upon inspection, the man be found to have a Circumcision, though not sufficient to disqualify, let it be noted under the proper head, and as of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been effected in the usual way or direct."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"It is to be noted an accurate description of the whole person to be obtained, and if possible, to settle questions of identity, should such be subsequently raised, and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be important."

"It is very frequently happens that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any farther."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Surgeon to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the Form, when completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

VOLUNTEER ENLISTMENT.

STATE OF

TOWN OF

Missouri

Louisiana Pike County

I, *Thomas G. Godwin*, born in *Scott County*
in the State of *Missouri*, aged *Twenty* years,
and by occupation a *Farmer*. Do HEREBY ACKNOWLEDGE to have
volunteered this *Third* day of *November* 186*4*
to serve as a *Soldier* in the Army of the United States of America, for
the period of *THREE YEARS*, unless sooner discharged by proper authority:
Do also agree to accept such bounty, pay, rations, and clothing, as are, or may be,
established by law for volunteers. And I, *Thomas G. Godwin* do
solemnly swear, that I will bear true faith and allegiance to the *United States*
of America, and that I will serve them honestly and faithfully against all
their enemies or opposers whomsoever; and that I will observe and obey the
orders of the President of the United States, and the orders of the officers
appointed over me, according to the Rules and Articles of War.

Sworn and subscribed to, at *Louisiana Pike County*
this *Third* day of *Nov.* 186*4*, } *Thomas G. Godwin*

Before *John W. Gentry*
Recruiting Officer

I CERTIFY, ON HONOR, That I have carefully examined the above-named Volunteer, according
to the General Regulations of the Army, and that, in my opinion, he is free from all bodily defects and
mental infirmity, which would in any way disqualify him from performing the duties of a soldier.

EXAMINING SURGEON.

I CERTIFY, ON HONOR, That I have minutely inspected the Volunteer *Thomas G. Godwin*
previously to his enlistment, and that he was entirely sober when enlisted; that, to the best of my
judgment and belief, he is of lawful age; and that, in accepting him as duly qualified to perform the
duties of an able-bodied soldier, I have strictly observed the Regulations which govern the recruiting
service. This soldier has *four* eyes, *light* hair, *fair* complexion, is *five*
feet four inches high.

John W. Gentry
Recruiting Officer

29 Regiment of *Missouri* Volunteers.

RECRUITING OFFICER.

(A.C.C. H. 702)

Mustered into the service of the United States, for *one year* or during the war, from date of enlistment, in Company *H*
4th Regiment of Light Artillery, on the *18* day of *November*, 186*4*, at *St. Louis, Mo.*
Approved: *John W. Gentry*
Recruiting Officer

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, or, conceivably, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by viewing the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the Form."

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has recovered at any time a laceration of the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the scars resulting from the same recorded. It is not uncommon to find marks of free smallpox upon the chest of a recruit, without there being any indication of disease. These however should be noted."

"If, upon examination, the man be found to have a Chancres, though sufficient to disqualify, let it be noted under the proper head; and if Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the relevant time or dates."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachectics will find a place. If an interpreter is required during the inspection, the fact should be recorded. Men sometimes speak English very well when examined, with some after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently demanded, and if there be any defects noted, which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be discovered at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"If defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and reenlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting returns of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. This Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment binds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

Form 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, etc., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting returns of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

Form 2.—An enlistment holds to service. A muster in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

VOLUNTEERS.
Oria June 5 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final statements are never given to men mustered out of service.) That he may at once receive from the Paymaster the pay, &c., due him, and the captain or other commanding officer commanding the company will certify to the act of the delivery of the duplicate certificates, with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for bank pay, &c., are settled by the 1st Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to equipment, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Discharges."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Landred must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for time, &c., of service, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words as a veteran, (or recruit,) as the case may be, should be introduced after the words mustered into the service of the U. S. A statement of all the installments of Veteran or Recruit Bounty RECEIVED by the Soldier must be made on the back of each final statement.

ARTICLES OF WAR.

ART. 92. When any non-commissioned officer or soldier shall die, or be killed in the service of the United States, the then commanding officer of the troop or company shall, in the presence of two other commissioned officers, take an account of what effects he died possessed of, above his arms and accoutrements, and transmit the same to the office of the Department of War, which said effects are to be accounted for, and paid to the representatives of such deceased non-commissioned officer or soldier. And in case any of the officers, so authorized to take care of the effects of deceased officers and soldiers, should, before they have accounted to their representatives for the same, have occasion to leave the regiment or post, by promotion or otherwise, they shall, before they be permitted to quit the same, deposit in the hands of the commanding officer, or of the assistant military agent, all the effects of such deceased non-commissioned officers and soldiers, in order that the same may be accounted for, and paid to, their respective representatives.

ARMY REGULATIONS—EDITION OF 1862.

DECEASED SOLDIERS.

PAR. 122. Inventories of the effects of deceased non-commissioned officers and soldiers, required by the 10th Article of War, will be forwarded to the Adjutant General, by the commander of the company to which the deceased belonged, and a duplicate of the same to the command of the regiment. Final statements of pay, clothing, &c., in duplicate, will be sent to the Adjutant General with one copy of the inventory. When a soldier dies at a post or station absent from his company, it will be the duty of his immediate commander to furnish the required inventory and final statements, and, at the same time, to forward to the commanding officer of the company to which the soldier belonged, a report of his death, specifying the date, place, and cause; to what time he was last paid, and the money or other effects in his possession at the time of his death. Such report will be noted on the next muster roll of the company to which the man belonged. Each inventory will be endorsed, "Inventory of the effects of _____, late of company (—), _____ regiment of _____, who died at _____, the _____ day of _____, 186—." If a legal representative receives the effects, it will be stated in the report. If the soldier leave no effects, the fact will be reported.

PAR. 123. Should the effects of a deceased non-commissioned officer or soldier not be administered upon within a short period after his death, they shall be disposed of by a Council of Administration, under the authority of the commanding officer of the post, and the proceeds deposited with the Paymaster, to the credit of the fund above, until they shall be claimed by the legal representative of the deceased.

PAR. 124. In all such cases of sales by the Council of Administration, a statement in detail, or account of the proceeds, duly certified by the Council and commanding officer, accompanied by the Paymaster's receipt for the proceeds, will be forwarded by the commanding officer to the Adjutant General. The statement will be endorsed, "Report of the proceeds of the effects of _____, late of company (—), _____ regiment of _____, who died at _____, the _____ day of _____, 186—."

NOTE 1.—The effects in all cases, when called for should be turned over to the legal representative, without further authority from the Adjutant General. When the effects are turned over to the relatives of the deceased before these inventories are sent to the Adjutant General, their receipts therefor should be attached to the inventories. In all other cases, one copy will be sent with a letter of transmittal direct to the Adjutant General, and a duplicate retained by the officer.

NOTE 2.—Particular care should be taken to take receipts in duplicate from the Paymaster for any funds turned over to him. One copy should be forwarded to the Adjutant General and one retained by the officer.

They will be made out in duplicate in all cases—one to accompany the recruiting returns of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

DUPLICATE WITH INVENTORY. SENT 29 AUDITOR

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged previously to the discharge of his company, that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; on these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining on his voucher the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. This endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the company commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portions of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowance that may be due him at the time of his discharge, and which may not appear on his final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the Adjutant General of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other attachments charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid, by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Landrows must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

Adjutant General's Office,

Washington, May 18, 1865.

Sir:

In reply to your letter requesting a Descriptive List of Herman
Grave, a Private in Company "C", 49th
Regiment Me. Volunteers, I have the honor to furnish the
following "Descriptive List" obtained from the records of this Office: which, from the
want of the necessary data, (which is in the possession of the Company Commander,)
is only "partial."

NAME, RANK AND REGIMENT, DESCRIPTION, &c.

Herman Grave, a Private in Company "C",
49th Regiment of Me. Volunteers, is 18
years of age; but no further "description" can be obtained from the files of this Office.
He was enrolled on the 8th day of Aug. 1864,
at the town of Troy in the State of Me.
by St. John C. Ball, and mustered into the service of the United
States on the 14th day of Sept. 1864, at the
town of Waverton in the State of Me.
by Capt. Sharp, to serve for the period of one year,
or "during the war."

ACCOUNT OF PAY

It is stated on the Muster Rolls of his Company for the months of
Jan. & Feb. 1865 that he was last paid by Paymaster
Chas. Carter to the 31st day of
Dec. 1864.

ACCOUNT OF CLOTHING.

The files of this Office furnish no account of clothing; it must be obtained, if
obtained at all, from his Company Commander.

REMARKS.

On the above Muster Roll (latest on file) reported
a Private. Present for duty.

Very respectfully,

Your obedient servant,

Wm. D. Beck

Assistant Adjutant General.

This "Partial Descriptive List" is given in order that the soldier may be discharged at once, without waiting for a descriptive list from his company
commander; and, having been used by the proper officer to make out the soldier's final statement, should be endorsed with a statement to that effect by
this office. This endorsement should exhibit a full statement of the time for which the soldier was allowed pay on his final statement, the clothing
account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the
company commander of the soldier, who will enter all the data necessary to a full understanding of the soldier's account on the muster roll upon which the
soldier's discharge is reported. This list will then be destroyed. The object of this is, that the remaining portion of the soldier's account may be settled
upon the receipt of their muster roll, and the soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not
appear on his final statement from the fact that the list is incomplete or "partial."

Wm. H.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in will must, in all cases, be filed in the Adjutant General's Office as evidence of muster in. The recruiting officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

[HERE NOTE IMPORTANT COMPLICATIONS AND ALL OPERATIONS.]

RESULT AND DATE.

Recd. furnished 3rd Dec. 11-71. H.G.S.

NOTE 1.

The company commander will here add a statement of all the facts known to him concerning the disease or wound, or cause of disability of the soldier; the time, place, manner, and all the circumstances under which the injury occurred, or disease originated or appeared; the duty, or service, or situation of the soldier at the time the injury was received or disease contracted, stating particularly whether the injury was received or the disease contracted in the line of his duty; and whatever other facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.

When the facts are not known to the company commander, the certificate of any officer, or affidavits of other persons having such knowledge, will be appended—as the surgeon in charge of a hospital, the officer commanding a detachment of recruits, &c., &c.

NOTE 2.

When a probable case for pension, special care must be taken to state the degree of disability—as *h, s, &c.*, &c.: to describe particularly the disability, wound, or disease; the extent of which it deprives him of the use of any limb or faculty, or affects his health, strength, activity, constitution, or capacity to labor or earn his subsistence. The surgeon will add, from his knowledge of the facts and circumstances, and from the evidence in the case, his professional opinion of the cause or origin of the disability. In the case of discharges by Medical Inspectors, the last paragraph will state that the "discharge was given by command of the soldier, after a personal examination, and for disability, the nature, degree, and origin of which are correctly described in the within certificate."

Par. 1200 Regulations, Edn. 1861.

Medical officers, in giving certificates of disability, are to take particular care in all cases that have not been under their charge; and especially in epilepsy, convulsions, chronic rheumatism, derangement of the urinary organs, ophthalmia, ulcers, or any obscure disease liable to be feigned or purposely produced; and in no case shall such certificate be given until after sufficient time and examination to detect any attempt at deception.

DIRECTIONS.

This certificate will be made out in duplicate by the soldier's company commander, or other officer commanding the separate detachment to which he belongs, and sent by him to the surgeon who has charge of the hospital where the soldier is sick. The surgeon will then fill out and sign the surgeon's certificate, and forward these papers to the regimental, detachment, or post commander, who will forward them, with his attestation endorsed thereon, through the proper channel, to his division commander; or, if the troops are not attached to a division, to his corps, department, or other commander or officer to whom the authority to discharge enlisted men may be specially delegated.

These certificates, after having received the action of the highest authority to which they are required to be sent, will be returned through the same channel to the regimental, post, or detachment commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the last certificate on this paper; see that the soldier is furnished with the proper final statements in duplicate, and forward both of these documents direct to the Adjutant General United States Army, at Washington, D. C.; they will not, under any circumstances, be given into the hands of the soldier.

They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of bounty. MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasion, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancro, though not sufficient to disqualify, let it be noted under the proper head; and so of Itch, scrofula or any other affection. The venereal mark and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Should a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the recruit to the Depot, where he is to be finally inspected, and thence transmitted to the Department to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of dirt a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting chronic or slight depression, let it be noted thus: 'Chronic and slight depression upon the right parietal protuberance.'"

"Marks upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumcised, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rounds camp or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after consideration, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon re-inspection should be endorsed upon the Form, and signed by the Surgeon. In case of Rejection, the Form must thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

VOLUNTEERS.

Quid May 15 116

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out, (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other commissioned officer commanding the company will certify to the act of the delivery of the duplicate certificate; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the master roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these master rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the Ad. Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Discharges."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Landwarrant must be entered on the master roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the Soldier is a drafted man or substitute, the space for these, &c., of executed, should contain only the word *drafted* or *substitute*, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words as a veteran, (or recruit,) as the case may be, should be interlined after the words *mustered into the service of the U. S.* A statement of all the installments of Veteran or Recruit Bounty RECEIVED by the Soldier must be made on the back of each final statement.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting returns of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

VOLUNTEERS.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service.) That he may at once receive from the Paymaster the pay, &c., due him, and the captain or other commanding officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to that effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and not yet paid, should be entered on the muster roll on which the discharge, death certificate, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for 4 volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the Soldier is a drafted man or substitute, the space for these &c., of enrolled, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "Volunteer," (or RECRUIT,) the words as a volunteer, (or recruit,) as the case may be, should be interlined after the words mustered into the service of the U. S. A statement of all the installments of Pay or of Recruit Bounty RECEIVED by the Soldier must be made on the back of each final statement.

NOTE 1.—This blank will be used for both enlistments and enlistments of soldiers, &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The recruit and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A master-in must, in all cases, precede payment of pay, bounty, pension, &c. A master-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States either of them is given to the disbursing officer.

I CERTIFY, ON HONOR, That I have carefully examined the above-named Volunteer, agreeably
to the General Regulations of the Army, and that, in my opinion, he is free from all bodily defects and
mental infirmity, which would in any way disqualify him from performing the duties of a soldier.

EXAMINING SURGEON.

I CERTIFY, ON HONOR, That I have minutely inspected the Volunteer
previously to his enlistment, and that he was entirely sober when enlisted; that, to the best of my
judgment and belief, he is of lawful age; and that, in accepting him as duly qualified to perform the
duties of an able-bodied soldier, I have strictly observed the Regulations which govern the recruiting
service. This soldier has blue eyes, brown hair, fair complexion, is fine

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the man being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, men who are thin than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of such a nature."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard of growth, particularly the head. For example: If the man has received at any time a blow upon the head with a resulting scissure or slight depression, let it be noted thus: 'Scissure and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, if possible. It is not uncommon to find marks of free cupping upon the chest of a German, without there being any indication of disease. These however should be noted."

"If upon inspection, the man be found to have a Circumcised, though not sufficient to disqualify, let it be noted under the proper head; and so of other marks or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the recruit's former depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in the case."

"No full record of accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised, and of course to any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and copies transmitted to the Regiments which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the documents and complaint should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment at muster-in, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

FINAL STATEMENT

OF

Private Charles Harrison
49th Regt of Ill. Infantry

VOLUNTEERS.

Died Mar. 14 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged previously to the discharge of his company, that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; on these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his voucher the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. This endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the company commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowance that may be due him at the time of his discharge, and which may not appear on his final statements from the fact that his descriptive list is destroyed. These accounts for both pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to personal, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this document.

NOTE 6.—Amounts due the Soldier and Landowners must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

ADJUTANT GENERAL'S OFFICE.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on this back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, on the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

FINAL STATEMENT

OF

1.1
Joseph Hannon

42 Reg't of Missouri Inf.

VOLUNTEERS.

March 26 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged previously to the discharge of his company, that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; on these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his voucher the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. This endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the company commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to arms, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid, by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and his dependents must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

He is sent to the

ADJUTANT GENERAL'S OFFICE.

Do also agree to accept such bounty, pay, rations, and clothing, as are, or may be,

Sworn and subscribed to, at Ware, Mass.

Before Charles W. Moore

I CERTIFY, ON HONOR, That I have carefully examined the above-named Volunteer, agreeably
to the General Regulations of the Army, and that, in my opinion, he is free from all bodily defects and

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the man being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when encased, as they eventually may be, and sometimes are, by incrustations of fifth or sixth skin."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received an injury to the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These scars should be noted."

"If, upon inspection, the man be found to have a Circumcision, though not pertinent to disqualification, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the residence or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachectia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It must frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to pursue any further."

"The entire Form, when filled up, should be sent with the Recruit to the Depot office he is to be finally inspected, and thence transmitted to the Surgeon in which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

I, Frederick H. Wagner, born in Germany,
in the State of Prussia, aged 21 years,
and by occupation a Blacksmith, Do HEREBY ACKNOWLEDGE to have
volunteered this 19th day of December, 1864,
to serve as a **Soldier** in the **Army of the United States of America**, for
the period of **THREE YEARS**, unless sooner discharged by proper authority:
Do also agree to accept such bounty, pay, rations, and clothing, as are, or may be,
established by law for volunteers. And I, Frederick H. Wagner, do
solemnly swear, that I will bear true faith and allegiance to the **United States**
of America, and that I will serve them honestly and faithfully against all their
enemies or opposers whomsoever; and that I will observe and obey the orders of
the President of the United States, and the orders of the officers appointed over
me, according to the Rules and Articles of War.

Sworn and subscribed to, at Prussia
this 19th day of December, 1864.

I CERTIFY, ON HONOR, That I have carefully examined the above-named Volunteer, agreeably
to the General Regulations of the Army, and that, in my opinion, he is free from all bodily defects and
mental infirmity, which would in any way disqualify him from performing the duties of a soldier.

Oliver Morris
Surgeon 49th Regt. Ill. Vols.
EXAMINING SURGEON.

I CERTIFY, ON HONOR, That I have minutely inspected the Volunteer
previously to his enlistment, and that he was entirely sober when enlisted; that, to the best of my
judgment and belief, he is of lawful age; and that, in accepting him as duly qualified to perform the
duties of an able-bodied soldier, I have strictly observed the Regulations which govern the recruiting
service. This soldier has 5' 8" high, 134 lbs. weight, blue eyes, dark hair, fair complexion, is single

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the man being walked about freely, that every organ exposed to locomotion may be subjected to inspection. For obvious reasons, men, others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify when concealed, as they effectually may be, and sometimes are, by macerations of skin a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasion, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the Form."

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting ematoma or elevated excoriation, let it be noted thus: 'Ematoma and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free fighting upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; cases of Haemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the residence or depot."

"Under the head of 'Remarks,' Constitutional Syphilis or other disease, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the examination completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every corner concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of skin a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"None upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chest of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumole, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affections. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the residence or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, with a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this method an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Department to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and reenlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting returns of the Adjutant General, and one to accompany the muster of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be put on the back.

NOTE 2.—An enlistment leads to service. A muster-in must be made in all cases, ~~in all cases~~ ^{in all cases} he filed in the Adjutant General's Office as evidence of muster-in. The mustering certificate, or assistant commissary of muster, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

NOTE 1.—This blank will be used for both enlistments and reenlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the enlistment (not the recruiting office) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment binds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in will not, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, or the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

Extract from Act of Congress.

SEC. 12. And be it further enacted, That the fees of agents and attorneys for making out and causing to be executed the papers necessary to establish a claim for a pension, bounty, and other allowance before the Pension Office, under this act, shall not exceed the following rates: For making out and causing to be duly executed a declaration by the applicant, with the necessary affidavits, and forwarding the same to the Pension Office, with the requisite correspondence, ten dollars; which sum shall be received by such agent or attorney in full for all services in obtaining such pension, and shall not be demanded or received, in whole or in part, until such pension shall be obtained; and the sixth and seventh sections of an act entitled "An act to grant pensions," approved July [fourteenth,] eighteen hundred and sixty-two, are hereby repealed.

SEC. 13. And be it further enacted, That any agent or attorney who shall, directly or indirectly, demand or receive any greater compensation for his services under this act than is prescribed in the preceding section of this act, or who shall contract or agree to prosecute any claim for a pension, bounty, or other allowance under this act, on the condition that he shall receive a per centum upon any portion of the amount of such claim, or who shall wrongfully withhold from a pensioner or other claimant the whole or any part of the pension or claim allowed and due to such pensioner or claimant, shall be deemed guilty of a high misdemeanor, and, upon conviction thereof, shall, for every such offense, be fined not exceeding three hundred dollars, or imprisoned at hard labor not exceeding two years, or both, according to the circumstances and aggravations of the offense.

Approved July 4, 1864.

NOTE 10.—If any soldier is charged a higher fee than that allowed by the above act, he should report the fact and the name of the agent to the Adjutant General, in order that steps may be taken to have the same refunded.

2nd FINAL STATEMENT 1147

OF
Henry Kiciush
49th Regt of Infy Mo Vol 9
VOLUNTEERS.
Died Mar 1 1866

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out, (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the master roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these master rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, arms, equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and his family must be entered on the master roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the same cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the words for those, &c., of enrolled, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words as a veteran, (or recruit,) as the case may be, should be interlined after the words mustered into the service of the U. S. A statement of all the installments of Veteran or Recruit Bounty RECEIVED by the Soldier must be made on the back of each final statement.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a *Chenue*, though not sufficient to disqualify, let it be noted under the proper head; and so of hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the residence or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be mischievously raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Since a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

FINAL STATEMENT
OF
Private
Augustus Henry
49 Reg't of Michigan Inf'y
VOLUNTEERS.
Died May 20 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out (Final Statements are never given to men mustered out of service) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or to his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the master roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is that the remaining portions of the Soldier's account may be settled upon the receipt of these final rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, baggage, equipments, and other miscellaneous charges, should appear under the heading of "Other Receipts."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and his dependents, as reported on the master roll on which the discharge, death certificate, &c., is reported, as well as on the final statement, otherwise the same should be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the Soldier is a drafted man or conscript, the space for time, &c., of service, should contain only the word "drafted" or "conscript," as the case may be. If the Soldier is a "VETERAN," the words "VETERAN" should be entered after the words "drafted" or "conscript," as the case may be. A statement of all the installments of Pay or Allowance RECEIVED by the Soldier must be made on the back of each final statement.

I CERTIFY, ON HONOR, That I have carefully examined the above-named Volunteer, agreeably
to the General Regulations of the Army, and that, in my opinion, he is free from all bodily defects and
mental infirmity, which would in any way disqualify him from performing the duties of a soldier.

EXAMINING SURGEON.

I CERTIFY, ON HONOR, That I have minutely inspected the Volunteer
previously to his enlistment, and that he was entirely sober when enlisted; that, to the best of my
judgment and belief, he is of lawful age; and that, in accepting him as duly qualified to perform the
duties of an able-bodied soldier, I have strictly observed the Regulations which govern the recruiting
service. This soldier has Blue eyes, dark hair, fair complexion, is five
feet high.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, and every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when examined, as they essentially may be, and sometimes are, by incrustations of skin a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasion, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be directed of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of fire scarring upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chronic, though not sufficient to disqualify, let it be noted under the proper head, and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the candidate's disposal."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, with fixed psoas. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by accretions of skin a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasion, the answers to these questions should be recorded on the spot. We then now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting scar or slight depression, let it be noted thus: 'Scar or slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free capping upon the chest of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of Herpes, Syphilis or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis or other Cachectic will find a place. If an interpreter is required during the inspection, the fact should be recorded. Men sometimes speak English very well when first examined, who, from after consideration, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such subsequently arise; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon re-inspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

FINAL STATEMENT

C. B. Regt of Infy 115th

VOLUNTEERS.

Lied Apr 22 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service.) That he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are retained by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amount due the Soldier and Company must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for detached volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for the name, of course, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words as a veteran, (or recruit,) as the case may be, should be interlined after the words mustered into the service of the U. S. A statement of all the installments of Pay and or Award Money RECEIVED by the Soldier must be made on the back of each final statement.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of dirt a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceed with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting clestris or slight depression, let it be noted thus: 'Clestris and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free-cupping upon the chest of German, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumcised, though not sufficient to disqualify, let it be noted under the proper head; and so of hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the random or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting returns of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. Discharged 15/11/65

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service.) That he may at once receive from the Paymaster the pay, &c., due him, and the captain or other commanding officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the master roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these master rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his final statements from the fact that his descriptive list is incomplete. These accounts for each pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under heading of "Other Discharges."

NOTE 5.—Bounty paid by State authorities, or by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and his family, when reported on the master roll on which the discharge is reported, as well as on the final statement, should be the amount to be collected from the United States.

NOTE 7.—This blank will be used for ~~discharged~~ volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or volunteer, the space for these, &c., of enrolled, should contain only the word ~~drafted~~ or ~~volunteer~~, as the case may be. If the Soldier is a "RETIRED" (or ~~discharged~~) the words as a ~~retired~~ (or ~~volunteer~~) as the case may be, should be interlined with the words ~~mustered~~ into the service of the U. S. A statement of all the entitlements of Veterans or ~~Re-enlisted~~ ~~Re-enlisted~~ by the Soldier must be made on the back of each final statement.

Deposition of
Samuel L. Howell
Sergeant E. 49. Mo Vols
of Lincoln Co.

Was captured at Comstock
by Beisons Command. on the
7th of Sept^r 1864. He and Joe Col-
lier (Hotel keeper) say that the
rebels were at the water tank.
and that they intended to take the
train that was on the train.

Mexico Mo.

The undersigned being duly sworn says
My name is Samuel L. Hamell I am ^{left}
a Sergeant in Co E. 49th Regt Mo Vol
Col Lyon commanding. On the
morning of the 7th day of September 1864.
I was on a freight train on the North
Mo. R.R. going towards St Louis said
train was captured at Centerville Water
Tank by Captain Beison Guerrilla Band
and about 50 horses taken off together
with the prisoner soldiers. Before moving
to the Water Tank the train had stop-
ped at Centerville some ^{twenty minutes} ~~two~~ hours; and it
was talked of by most of the citizens that
the train might be captured as Beison
had been there the night before. A few
moments before the train started I
went to the Hotel kept by one Joe Callier
I bought some cigars; and being in cit-
izens clothes, I pretended to be a Southern
sympathizer, and said Callier told me
that 20 of the men were at the place
the night before and then said "then at
the water tank now". Then referring to
the three Federal soldiers who were off at
some distance continued "those boys
seem to be very uneasy but they won't harm
them they only want the horses that are on
the train" in words to that effect, seeming

to speak as having ~~to~~ a perfect knowledge
of their movements (the Surrender) In my
conversation with him which was but for
a few moments he talked ~~free~~ ^{free} when no
soldiers were about, but when a soldier passed
he stopped talking and spoke to me as
in confidence, at ~~the next moment~~ ^{the next moment} after
remarking that "they even at the tank"
the Bell rang for passengers to get
aboard and I ran to the train which
was starting - The tank being by a
moment even from the town I had no
opportunity to gain the information which
I had wanted before the train was in
their hands. they being as he said at
the tank. After the men taken prisoners
I heard Mrs. Callen or a woman at the Hotel
call for Mr. Capt. Queen to see him he came
to her and she begged him not to shoot
the soldiers he had taken prisoners but treat
them like prisoners. Prisoner said he
should kill them Samuel S. Howell

FINAL STATEMENT

Chapter 1864-

Rear Joseph Hughton Co B
49th Regt of Infy Mo Vols

Died Feb 5th 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out, (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c. due him, and the captain or other commanding officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for each pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

ARTICLES OF WAR.

ART. 21. When any non-commissioned officer or soldier shall die, or be killed in the service of the United States, the then commanding officer of the troop or company shall, in the presence of two other commissioned officers, take an account of what effects he died possessed of, above his arms and accoutrements, and transmit the same to the office of the Department of War, which said effects are to be accounted for, and paid to the representatives of such deceased non-commissioned officer or soldier. And in case any of the officers, so authorized to take care of the effects of deceased officers and soldiers, should, before they have accounted to their representatives for the same, have occasion to leave the regiment or post, by promotion or otherwise, they shall, before they be permitted to quit the same, deposit in the hands of the commanding officer, or of the assistant military agent, all the effects of such deceased non-commissioned officers and soldiers, in order that the same may be secured for, and paid to, their respective representatives.

ARMY REGULATIONS—EDITION OF 1862.

DECEASED SOLDIERS.

PAR. 121. Inventories of the effects of deceased non-commissioned officers and soldiers, required by the 21st Article of War, will be forwarded to the Adjutant General, by the commander of the company to which the deceased belonged, and a duplicate of the same to the colonel of the regiment. Final statements of pay, clothing, &c., in duplicate, will be sent to the Adjutant General with one copy of the inventory. When a soldier dies at a post or station absent from his company, it will be the duty of his immediate commander to furnish the required inventory and final statements, and, at the same time, to forward to the commanding officer of the company to which the soldier belonged, a report of his death, specifying the date, place, and cause; to what time he was last paid, and the money or other effects in his possession at the time of his decease; which report will be noted on the next muster roll of the company to which the man belonged. Each inventory will be endorsed, "Inventory of the effects of _____, late of company (—) _____, regiment of _____, who died at _____, the _____ day of _____, 186—." If a legal representative cannot be ascertained, it will be stated in the report. If the soldier leave no effects, the fact will be reported.

PAR. 122. Should the effects of a deceased non-commissioned officer or soldier not be administered upon within a short period after his decease, they shall be disposed of by a Council of Administration, under the authority of the commanding officer of the post, and the proceeds deposited with the Paymaster, to the credit of the United States, until they shall be claimed by the legal representatives of the deceased.

PAR. 123. In all such cases of sales by the Council of Administration, a statement in detail, or account of the proceeds, duly certified by the Council and commanding officer, accompanied by the Paymaster's receipt for the proceeds, will be forwarded by the commanding officer to the Adjutant General. The statement will be endorsed, "Report of the proceeds of the effects of _____, late of company (—) _____, regiment of _____, who died at _____, the _____ day of _____, 186—."

NOTE 1.—The effects in all cases, when called for, should be turned over to the legal representative, without further authority from the Adjutant General. When the effects are turned over to the relatives of the deceased before their inventories are sent to the Adjutant General, their receipts therefor should be attached to the inventories. In all other cases, one copy will be sent with a letter of transmittal direct to the Adjutant General, and a duplicate retained by the officer.

NOTE 2.—Particular care should be taken to take receipts in duplicate from the Paymaster for any funds turned over to him; one copy should be sent direct to the Adjutant General and one retained by the officer.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster in. The recruiting officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the man being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, some others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of dirt or mud."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free fighting upon the chest of Germans, without there being any indication of disease. These answers should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of Pilonidal sinus or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"As the Surgeon obtains an accurate description of the whole person is obtained, sufficient to enable questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The answer Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Surgeon, which he may be assigned."

"Forms discovered at the Depot upon reinspection should be endorsed upon the Form and signed by the Surgeon; in case of Rejection, the documents thus completed should be transmitted with the proceedings of the Board of Inspectors to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the discharging officer.

Adjutant General (186)

In the case of discharge by medical certificate, the paragraph will state that the "discharge was given by consent of the soldier, after a personal examination, and for disability, the nature, degree, and origin of which are correctly described in the within certificate."

Par. 1930 Regulations, Edit. 1881.

Medical officers, in giving certificates of disability, are to take particular care in all cases that have not been under their charge; and especially in epilepsy, convulsions, chronic rheumatism, derangement of the urinary organs, ophthalmia, ulcers, or any obscure disease liable to be feigned or purposely produced; and in no case shall such certificate be given until after sufficient time and examination to detect any attempt at deception.

DIRECTIONS.

This certificate will be made out in duplicate by the soldier's company commander, or other officer commanding the separate detachment to which he belongs, and sent by him to the surgeon who has charge of the hospital where the soldier is detained. The surgeon will then fill out and sign the surgeon's certificate, and forward these papers to the regimental, detachment, or post commander, who will forward them, with his action endorsed thereon, through the proper channel, to his division commander; or, if the troops are not attached to a division, to his corps department, or other commander or officer to whom the authority to discharge enlisted men may be specially delegated.

These certificates, after having received the action of the highest authority to which they are required to be sent, will be returned through the same channel to the regimental, post, or detachment commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the last certificate on this paper; see that the soldier is furnished with the proper final statements in duplicate, and forward BOTH of these certificates direct to the Adjutant General United States Army, at Washington, D. C.; they will not, under any circumstances, be given into the hands of the soldier.
